The geographic drop tracks out-of-region training support (hollow marker = China-region aggregate)
Spearman ρ = 0.48 (n = 7)
Accuracy lost by holding the region out (in-domain − held-out, pp)
Share of the region's test species with ≤5 training images outside that region
Taiwan, China
China region (incl. TW, HK, MO)
China region (aggregate)
Mainland China
Japan
Thailand
United States
Russia
Vietnam
Leave-one-region-out: trained-with (light) vs trained-without (dark) the region, n = 28–367
